

17 October 2022

Mr Anurodh Pandey
U8 16 Jamieson Street
GRANVILLE NSW 2142

Dear Anurodh

I'm pleased to enclose your 2022 AustralianSuper annual statement.

The past financial year has been challenging for many members. We have experienced the ongoing impacts of Covid-19, natural disasters and increases in the cost of living, as well as the effects of global economic uncertainty and conflict.

Against this backdrop it's important to remember that your superannuation is a long-term investment for your retirement. At AustralianSuper we actively invest your super as markets move up and down, so that it can grow over time. That's how our flagship Balanced investment option has delivered an average return of 9.32% each year over the last 10 years and 7.84% each year over 20 years*, ranking it in the top 2 in Australia over both periods†.

Your 2021/22 investment returns

For the 2021/22 financial year the Balanced option returned -2.73%, largely as a result of challenging global investment conditions and emerging concerns about the global economy. The significant fall in investment markets globally in the second half of the year was offset by the Balanced option's diversified investment portfolio which helped reduce the impact on returns.

After a long period of positive returns, I understand that it can be difficult to see a negative return for your superannuation this financial year. Rest assured that through this period of market uncertainty, our global team of experienced investment professionals remains focussed on ensuring the portfolio is very well positioned and continue to use the size, scale and skill of the Fund to your advantage. As the economic cycle progresses and markets respond, we will adjust the portfolio to manage risk and take advantage of long-term investment opportunities, as we have successfully done over the long term.

If you'd like to hear more about how your investments have performed, watch our review at australiansuper.com/investments

Focus on fees

At AustralianSuper we know that delivering low fees plays a big part in helping members achieve their best financial position in retirement. This year, nearly 2.3 million members will benefit from a reduced or unchanged administration fee‡, and almost all members with insurance (over 1.1 million) will benefit from a decrease in insurance costs.

Investment costs vary each year depending on our investment activities. In the 2021/2022 financial year we invested in several large Australian infrastructure and property assets like Sydney Airport and WestConnex toll road, because we believe these assets will make a significant contribution to members' retirement savings over the long term. These investments incurred upfront costs, such as stamp duty, which contributed to higher investment costs for some options in the 2021/22 financial year than the year before. Investment costs have already been included in the above return figures.

Before making a decision about AustralianSuper, you should think about your financial requirements and refer to the relevant Product Disclosure Statement available at australiansuper.com/pds or by calling 1300 300 273. A Target Market Determination (TMD) is a document that outlines the target market a product has been designed for. Find the TMDs at australiansuper.com/tmd. AustralianSuper Pty Ltd, ABN 94 006 457 987, AFSL 233788, Trustee of AustralianSuper ABN 65 714 394 898.

30 years of superannuation

In July 1992 the Superannuation Guarantee (SG) was introduced, meaning that for the first time most working Australians received a contribution to superannuation with their wages. Over the last 30 years, this great Australian initiative has ensured millions of Australians have more savings for retirement. On 1 July 2022 the SG increased to 10.5%, as part of a legislated timetable to reach 12% by 2025. Other changes from 1 July also mean people who earn less than \$450 per month are eligible to be paid super on their wages.

AustralianSuper has long supported these changes because we believe they will deliver better outcomes for Australians in retirement. We will keep advocating to improve the system so all Australians can live well in retirement.

Looking forward

After a decade long growth cycle, we are anticipating a period of rising interest rates and slowing growth, both in Australia and around the world. As a result, the challenging conditions experienced by investment markets in the last six months may continue over the short to medium term.

As we have seen through our strong long-term performance, staying invested in an actively managed and diversified portfolio means your super has more opportunity to benefit through the economic cycle, including as markets recover. I'd like to reassure you of my, and the Fund's, ongoing commitment to help you achieve your best financial position in retirement.

I encourage you to visit our website australiansuper.com for a wide range of information to help and guide you, or to contact us at australiansuper.com/contact-us if you have any questions.

Yours sincerely

Paul Schroder
Chief Executive

*Returns as at 30 June 2022. Investment returns are not guaranteed. Past performance is not a reliable indicator of future returns. AustralianSuper returns for periods before 1 July 2006 are from equivalent investment options of the ARF and STA super funds.

†AustralianSuper Balanced investment option compared to the SuperRatings Fund Crediting Rate Survey, SR50 Balanced (60-76) Index to 30 June 2022.

‡Based on member balances as at 30 April 2022 and a comparison of the current administration fee with the new administration fee from September 2022.

How investment returns are calculated

For all investment options other than Member Direct, AustralianSuper sets a daily crediting rate for each investment option, which can be positive or negative depending on the option's performance. Returns are allocated to your account:

- at 30 June each year
- when you change investment options
- when you make a partial withdrawal, or
- when you close your account.

If you'd like to know the crediting rates that applied for each day of the period, or for more information about all investment options, visit australiansuper.com/investments

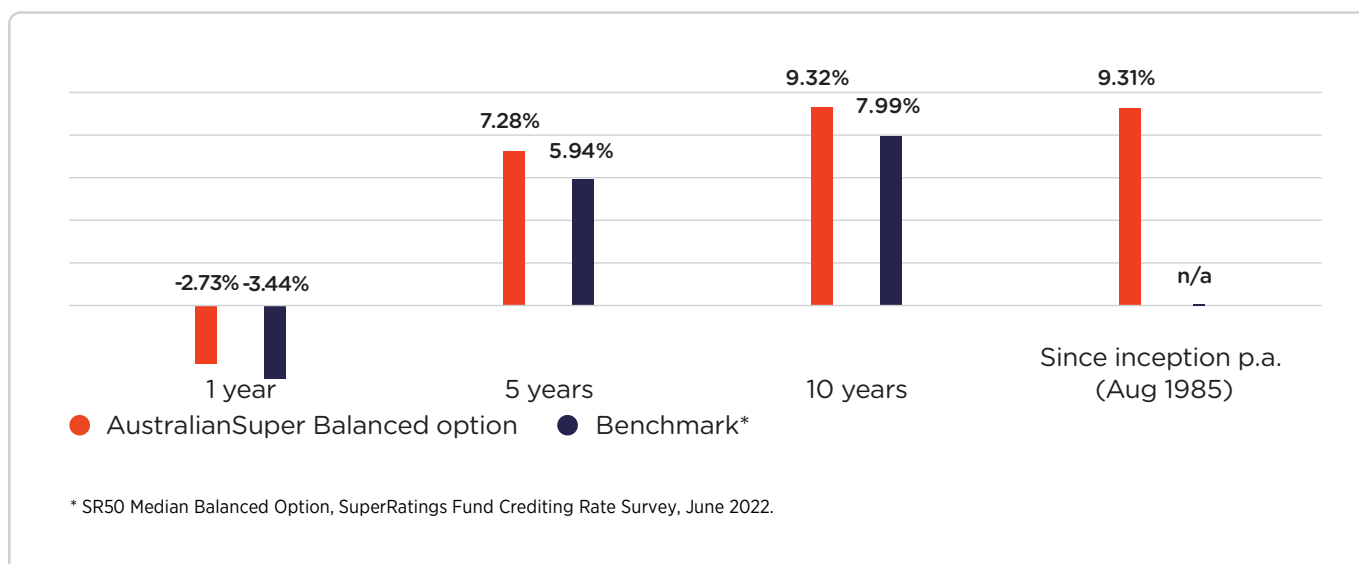

You can view an estimate of your current balance at any time, taking into account all transactions and investment returns, by logging into your account at australiansuper.com

The returns for AustralianSuper investment options were calculated by the AustralianSuper Investments Department. Investment returns are not guaranteed. Past performance is not a reliable indicator of future returns.

Benchmark

Our performance against the benchmark

As at 30 June 2022

What is a benchmark?

A benchmark is a measure that is used to compare the performances of investment portfolios and super funds. Returns of AustralianSuper's Balanced option are compared with the median returns of other balanced funds, through the SuperRatings Fund Crediting Rate Survey, an industry survey conducted every month.

A copy of the latest product dashboard for our MySuper option can be found at australiansuper.com/MySuperDashboard

AustralianSuper investment returns are based on crediting rates. Crediting rates are the investment return less investment fees and costs, the percentage-based administration fee (applicable from 1 April 2020) and taxes. The 1 year, 5 years, 10 years and since inception figures are rolling returns as at 30 June 2022. In calculating historical returns that begin before 1 July 2006, returns from the equivalent investment options of the ARF and STA super funds are used. If only one of the ARF or STA funds previously offered the option the returns for that option have been used. Investment returns are not guaranteed. Past performance is not a reliable indicator of future returns.

Your insurance cover

As at 30 June 2022

AustralianSuper provides members with basic (age-based) insurance cover with their super account. This cover provides a basic level of protection if you die or become ill or injured.

This cover will start once you're 25 or older; and your super balance reaches \$6,000; and you've received an employer super contribution after your super balance first reaches \$6,000 (age limits and other conditions apply).

To see any cover that may have started from 1 July 2022, use the app and go to *Insurance* or log into your account and go to *My insurance*.

Learn more

- **Find out more about insurance** in the *Insurance in your super* guide for your division. It has information about applying for cover, when cover starts and stops as well as terms, conditions and costs that apply. Visit australiansuper.com/InsuranceGuide
- **Our insurance calculator** can help you work out how much cover you need and what it will cost based on your age as well as other personal and financial details. Visit australiansuper.com/InsuranceCalculator

Access to your super

Unrestricted non-preserved (available now)	\$0.00
Restricted non-preserved (available when you change employers)	\$0.00
Preserved (generally only available when you retire from the workforce on or after reaching 60, which is your preservation age determined by your date of birth)*	\$3,512.02

The value of your benefit is based on the date of this statement and is subject to change. Before withdrawing from the fund, you should seek information from AustralianSuper about your withdrawal benefit at the time.

* You may be able to access your super in other circumstances, see australiansuper.com/AccessSuper for details.

Your beneficiaries

You haven't nominated any beneficiaries, so we don't know who you'd like us to pay your super to if you die.

To nominate beneficiaries, log into your account at australiansuper.com

Or to make a binding nomination, download the appropriate form at australiansuper.com/forms or call us on **1300 300 273**.

Changes made to details of beneficiaries after 30 June 2022, will appear on next year's statement.

To learn more about who you can nominate as a beneficiary see australiansuper.com/beneficiaries

	Government tax^						-561.86
	Investment returns						-195.63
30/06/22	Closing balance						3,512.02

* This component of Administration fee is calculated weekly and deducted monthly from your account and does not include the component of the Administration fee deducted from investment returns. See Your fees and costs summary for details on all fees and costs.

^ Transaction comprises (where applicable) contributions tax paid less the tax benefit passed to you if you have paid insurance premiums.

Your fees and costs summary

Fees deducted directly from your account: -\$95.07

This amount has been deducted directly from your account (reflected in the transactions listed on this statement).

This includes:

Administration fees: -\$117.00

This amount is the component of the administration fee that has been deducted from your account balance. This fee is calculated weekly and deducted monthly from your account.

Low balance fee cap refund: \$21.93

Low balance fee cap refund applied to the account.

Fees and costs deducted from your investment: -\$30.28

This approximate amount has been deducted from your investment and covers amounts that have reduced the return on your investment and that are not reflected as transactions listed on this statement.

This includes:

Administration fees deducted from returns: -\$0.73

This amount is the component of the administration fee that has been deducted from your investment returns before returns are added to your account. This fee is applied as a percentage of the money you have in your super account and is shown here as a dollar value.

Tax benefit on administration fees: -\$20.65

The tax benefit the Fund claims on its administration fee in the form of a reduced Administration fee.

Investment fees and costs: -\$8.90

The Investment fees and costs represents the cost to us of managing your money and was deducted from before-tax investment returns before the returns were applied to your account. These costs include external investment management fees, performance related fees, and transactional and operational costs. The Investment fees and costs is expressed as a percentage of the money you have invested in each investment option and is shown here as an approximate dollar amount to help you understand the effect investment fees and costs can have on your super balance.

Total fees and costs you paid: -\$125.35

This approximate amount includes all fees and costs which affected your investment during the period.

The total administration fee you paid during the period, including directly from your account and the approximate amount deducted from returns, was -\$117.73.

If your account balance for a product is less than \$6,000 at the end of the current financial year, certain fees and costs charged to you in relation to administration and investment are capped at 3% of the account balance. Any amount charged in excess of the 3% cap must be refunded.

Need more information?

For more information about fees and costs – including amounts paid directly from your account and amounts deducted from your investments returns – read our Product Disclosure Statement at australiansuper.com/pds

Tax deductions

When AustralianSuper can claim a tax deduction, you may benefit as follows:

- Administration fees are paid into the fund's administration reserve and the fund pays its administration costs from that reserve. The fund will claim a tax deduction for administration costs each year. The amount of the tax deduction is also paid into the reserve.
- Insurance fees are claimed as a deduction against your contributions before contributions tax is calculated and charged to your account.
- Investment-related costs are claimed as a deduction against taxable investment income for the whole fund, before net earnings are calculated and applied to your account.
- If you have paid Advice fees the fund claims a reduced input tax credit on the GST component and passes the benefit to you in the form of a lower Advice fee deducted from your account. This means that the advice fee deducted from your account is less than the full fee that's paid to the financial adviser.*

* Personal financial advice is provided under the Australian Financial Services Licence held by a third party and not by AustralianSuper Pty Ltd.

Transactions for Government taxes comprise contributions tax paid less the benefit of a tax deduction passed to you if you have paid insurance premiums.

Outstanding contribution payments

When super payments from participating employers are overdue, AustralianSuper issues written communication to employers. If these contributions are not received following written communication, we may refer the matter for debt collection.
